Bikes at the Compactor: Mayor Webber stated he had spoken with staff from the county, and due to additional permitting required to accept bikes at the compactor, the county does not want Parker to accept bike donations at this time.

Code Enforcement Official:

Kari Brandt moved to hire Mark Denman as the Code Enforcement Official at \$20 per hour for 15 hours per month, with 1 tank of gas provided by the city each month. Joe Godfrey seconded the motion, which passed 3-0.

Code Enforcement Official Equipment: Clerk Leach stated that the council had previously agreed to purchase the necessary equipment when a new code enforcement official was hired. Mr. Denman indicated he is comfortable using a tablet rather than a laptop and a camera. Clerk Leach also recommended that the new code enforcement official be provided with a city-issued cell phone to conduct city business with residents. It was suggested that the extra police cell phone be used if possible. Clerk Leach will look into this option and, if it is not feasible, will obtain a different phone for his use. Three tablets were presented to the council for review and consideration.

Kari Brandt moved to purchase the Munbyn Rugged Tablet for \$674.99. Meranda Ellison seconded the motion, and the motion passed 3-0.

Mr. Denman also recommended the OnX app for the tablet, which provides property line and ownership information to assist with his duties. The app costs \$99 per year. Mayor Webber requested that the city first look into any property information that may already be available from the county.

The company offers a monthly subscription for \$9.99 per device and extended the trial period until the council could meet and decide whether to purchase or not. It was suggested that if the city has insurance on the trailer, a monthly subscription is not really necessary. Treasurer Harrison suggested that Clerk Leach check into the insurance coverage to be sure. The council agreed not to purchase the subscription.

Radio Encryption for PD: Chief Lee informed the council that all the police radios in the county run on the same radio encryption, which enables them to reach out to other departments at need. If he does not have the same encryption, no one can hear him when he speaks. He let the council know the total cost for Parker would be \$726.04, which includes the radios.

Meranda Ellison moved to approve the encryption of Parker PD's Police radio system to match the county. Joe Godfrey seconded the motion, which passed 3=0.

Sound/Audio System for Community Building: Mayor Webber presented a bid from the county IT person to install a sound and audio system in the community building. The council expressed concern about running wires during the same possible timeframe as repairs on the exterior of the building. Mayor Webber observed the bid did not include video equipment, which was an original want. The council tabled the topic for consideration at a later date.

Christmas Parade: Clerk Leach shared a request for a short road closure on December 13th, to have the Christmas Parade on Main Street at 4:30 p.m. She stated the request was for an hour and only along the parade route, which starts on Short Street and ends at Center and Main.
